Influencers.

What is an Influencer.

An 'influencer' is someone respected within a niche or industry who has 'influence' over their target audience, considered to have specialized knowledge and insights into specific subjects and perceived to be an authority and highly respected within their industry.

Influencers are sometimes described as a change maker or a change agent, somebody with a voice who is leading a conversation, somebody who is willing to put themselves out there to inspire, to entertain and help others with their content by teaching and adding value to their followers.

The best part is anybody can build their following and become an influencer. (the larger the following, the greater the potential to influence).

To position yourself as an influencer, you should

1. Have a clearly defined purpose,
2. Understand how you can help or 'Add Value' to your target audience,
3. Know how to get your message in front of them,
4. Solve their challenges, fears or problems with viable and preferably easily applied solutions that work,
5. Consistently post content,
6. Build and grow your following.

FORMULA

Benefits of Interacting with Influencers.

Because Influencers have a large number of followers, whenever they make a comment on your article or post, their comment can help your post get noticed by literally thousands more people, in some cases resulting in your post even going viral.

Here are several ways you can benefit from interaction with an Influencer on LinkedIn.

- 1.) Increased personal brand recognition by a wider audience.
- 2.) Improved brand positioning and perception by a larger audience,
- 3.) Increased reach of your post to a wider audience,
- 4.) Greater interaction with your posts, more comments, more likes, more shares etc,
- 5.) The potential to increase your connections or followers,
- 6.) More opportunities to interact, connect and network with a larger target audience.

RESULTS
FORMULA

Interact with & Get the Attention of Influencers.

Steps to help you to interact and get the attention of influencers.

- 1.) Compile a shortlist of influencers whose business and therefore their audience is similar to yours.
- 2.) Go to their Content feed by clicking on 'Content here' on their profile listing within this pdf.
- 3.) Save their 'Content feed' in a folder on your browser.
- 4.) Click on their profile listing here in this pdf, visit their profile and 'Follow' them.
- 5.) Regularly and consistently, Like & Comment on their content. (Tag them when you comment on their post)
- 6.) After you have regularly and consistently interacted with their content, and they have replied to your comments on their posts, should you occasionally tag them in your content. Don't over do it!

FORMULA

The Benefit of Interaction from just 1 Influencer.

There are several ways you can benefit from an Influencer or Top Voice of LinkedIn.

Here's a good example. (True story)

Last year I put up a post on LinkedIn based on a few simple tips that would help job seekers to make their profile have a stronger impact.

Within a day of being posted, a highly respected LinkedIn influencer commented favorably on my post, her 1 comment received over 50 likes and due to the size or numbers of her followers, added 100,000 views to my post in less than 24 hours.

The post achieved a total of over 150,000 views in just a few days.

Basically her 1 comment resulted in my post going VIRAL!

Influencers Can Expand the Reach of Your Content

& Even Help Your Content Go Viral!

Imagine.

What would the interaction from just 1 influencer
do for the reach of your post?

RESULTS
FORMULA

Please Note.

If you want to be noticed by any of these influencers, then I highly recommend that you select just a few influencers who target or work with a similar target audience to yours.

Importantly, interact with the content of those influencers BEFORE you tag them or reach out to them in any way.

Take the time to interact, let them discover who you are by commenting on their content, **ONLY** after they have replied to several of your comments should you then tag them in just a few of your posts.
